

A woman with long dark hair, wearing a red long-sleeved top and black patterned leggings, sits on a dark red leather tufted sofa. She is wearing light-colored high-heeled shoes. The sofa is on a floor made of large, dark wood-look planks. To the right of the sofa is a small, round, black metal wire side table with a glass and a bowl on it. The background is a dark, textured wall. In the top right corner, there is a white box containing the HARO logo and the text 'Quality Flooring'.

# Welcome to HARO

The success of our brand is no coincidence. Our family business has a tradition in woodworking that goes back 150 years. We combine our love for wood as a natural product with a passion for continuous innovation when it comes to natural beauty and comfort. Our pioneering role when it comes to trends, our tireless striving for the highest quality and our consistently sustainable actions have made us Germany's leading parquet manufacturer. In over 90 countries our brand stands for parquet floors that fulfil the highest requirements – whether it is for in Plank 1-Strip design, Longstrip or the new Plaza wide board.

You will be stunned by the variety of our product range. Let yourself be inspired by the most beautiful parquet floors for your home.

# *The Company*

Our home for 150 years.

## Wood – Liveliness and stability

It was a match factory and a sawmill with which Franz Paul Hamberger laid the foundation in 1866 for what is today's family-run company. Now, we can look back on 150 years of experience in the professional processing of wood. Our company principles have always included acting with the future in our sights and driving innovation. Already in 1950 we launched multilayer parquet as one of the first manufacturers and have since then developed it continuously. Today, our parquet floors are known for their quality and natural appeal in over 90 countries. We acquire our raw materials exclusively from certified sources and focus on the responsible use of all resources needed for the production of our quality products. A Parquet Floor by HARO is an investment in the most important part of your life: a healthy, stylish and beautiful home. This way, you create quality of life for each and every day. Welcome to HARO.

# *Facts about Parquet in short*

---

There is more to HARO PARQUET than meets the eye. Many decades of experience, continuous improvement and innovative solutions always guarantee the most modern technology, the highest level of reliability and an extraordinary variety. On the following pages we will explain the benefits, various designs, grades and surface treatments in order to make it easier for you to choose from our product range. Also, we will illustrate what characterises our floors. This way, it will be easy for you to choose the perfect floor for your living situation.

## DESIGNS

## IMPRESSIVE FORMATS

### 1. Longstrip:

Clear and crisp look provided by three parallel strips.

Dimensions: 180 x 2200 mm  
(7 3/32" x 86 5/8")

### 2. Plank 1-Strip:

The modern parquet classic in the plank design creates a spacious appearance.

Dimensions: 180 x 2200 mm  
(7 3/32" x 86 5/8")  
or 173 x 2200 mm  
(6 13/16" x 86 5/8")  
(for Smoked Oak)

### 3. Plank 1-Strip Plaza:

New, trendy board width for an impressive room ambience and a prestigious look.

Dimensions: 240 x 2200 mm  
(9 7/16" x 86 5/8")

PLANK 1-STRIP OR  
LONGSTRIP:  
TWO DESIGNS THAT MAKE ROOMS  
LOOK TOTALLY DIFFERENT.

The two designs have completely different effects on the feel of a room. Plank 1-Strip gives the room a much calmer appeal and the floor retreats into the background. A Longstrip floor, on the other hand, creates a much livelier and vivid impression of the same room.

# Facts about Parquet in short

## GRADES

No two pieces of wood are alike, even if they come from the same tree. Heartwood looks different to wood from the outer regions of the tree trunk. And depending on the wood species, wood from higher parts of the tree may have more knots than wood from further down. There are many criteria that define the typical character of a grade. One thing remains the same, though: it takes the keen eyes of our experienced production staff to ensure accurate grading. No machine can be that precise – and this is why our top-layer strips are always graded by hand. This guarantees that we can always meet your high quality standards as well as those of Hamberger.

## HARO PARQUET PLANK 1-STRIP

### Exklusiv

- Choice top-layer strips with uniform texture and colour
- Look: subtle, distinguished, elegant

### Markant

- Wood grain with natural amount of knots
- Look: Natural, classic, timeless

### Sauvage

- Natural to vibrant wood texture with a greater amount of knots
- Cracks, filled spots and worm holes may be visible
- Look: trendy, rustic

### Country

- Strong variances in colour, may contain light-coloured knots and sapwood (Oak, Walnut) or dark heartwood (Ash)
- Look: vibrant, expressive

### Universal

- Combination of our grades, including heartwood
- Look: vibrant

### Alabama

- Lively wood texture with authentic amount of knots and a number of black puttied cracks
- Look: individual, rustic, authentic

## HARO PARQUET LONGSTRIP

### Exquisit ●

- Choice top-layer strips of uniform texture and colour
- Look: subtle, distinguished, elegant

### Trend △

- Natural wood grain with a few small knots
- Look: Natural, classic, timeless

### Terra

- Natural, rustic wood texture with large amount of knots
- Look: vibrant, rustic

### Tundra □

- Wider colour variances in the wood
- Look: vivid, vibrant
- for Beech: natural knot spread
- for Oak: sapwood

### Favorit

- Well-balanced combination of subtle and vibrant top layer strips
- Look: appealing colour variances, vibrant effect

### Country

- Strong variances in colour, with dark heartwood (Beech, Ash)
- Look: rich variances in colour

### Family

- Vibrant combination of Terra and Tundra, with a natural amount of knots and sapwood
- Look: vivid, vibrant, rustic

### Sauvage

- A large amount of distinctive knots and dark filled spots
- Look: trendy, rustic

### Standard

- Subtle variances in colour and vibrant wood texture with a small amount of knots
- Look: vibrant, authentic

### Universal

- different grades, may also contain dark heartwood
- Look: vibrant

Please note: Exotic wood species can feature mineral deposits, which can appear later on as staining on the surface.

●, △, □ graded in acc. with EN 13489, 4.4 all others graded in acc. with EN 13489, B

## SURFACE FINISH

Our surface treatments maintain the natural appeal of your parquet floor. At the same time, they protect it from external influences and preserve the radiance of your Parquet Floor in a natural way.

This way you can adapt your favourite parquet to every living situation, depending on the type of wear and tear your floor is subject to.

### permaDur

HIGH FINISH

Durable  
high finish

### bioTec

OIL/WAX FINISH

The close-to-nature  
oil/wax finish

### naturaLin<sup>plus</sup>

NATURAL OIL FINISH

The "breathing"  
natural oil surface

### naturaDur

MATT SURFACE FINISH

The natural matt  
surface finish for  
the best possible protection

surfaces.

**Floor care aqua shield**  
Durable refurbishing and  
maintenance of prefinished parquet.

*This is what makes our  
Parquet Floors so special:  
The surface textures*

---

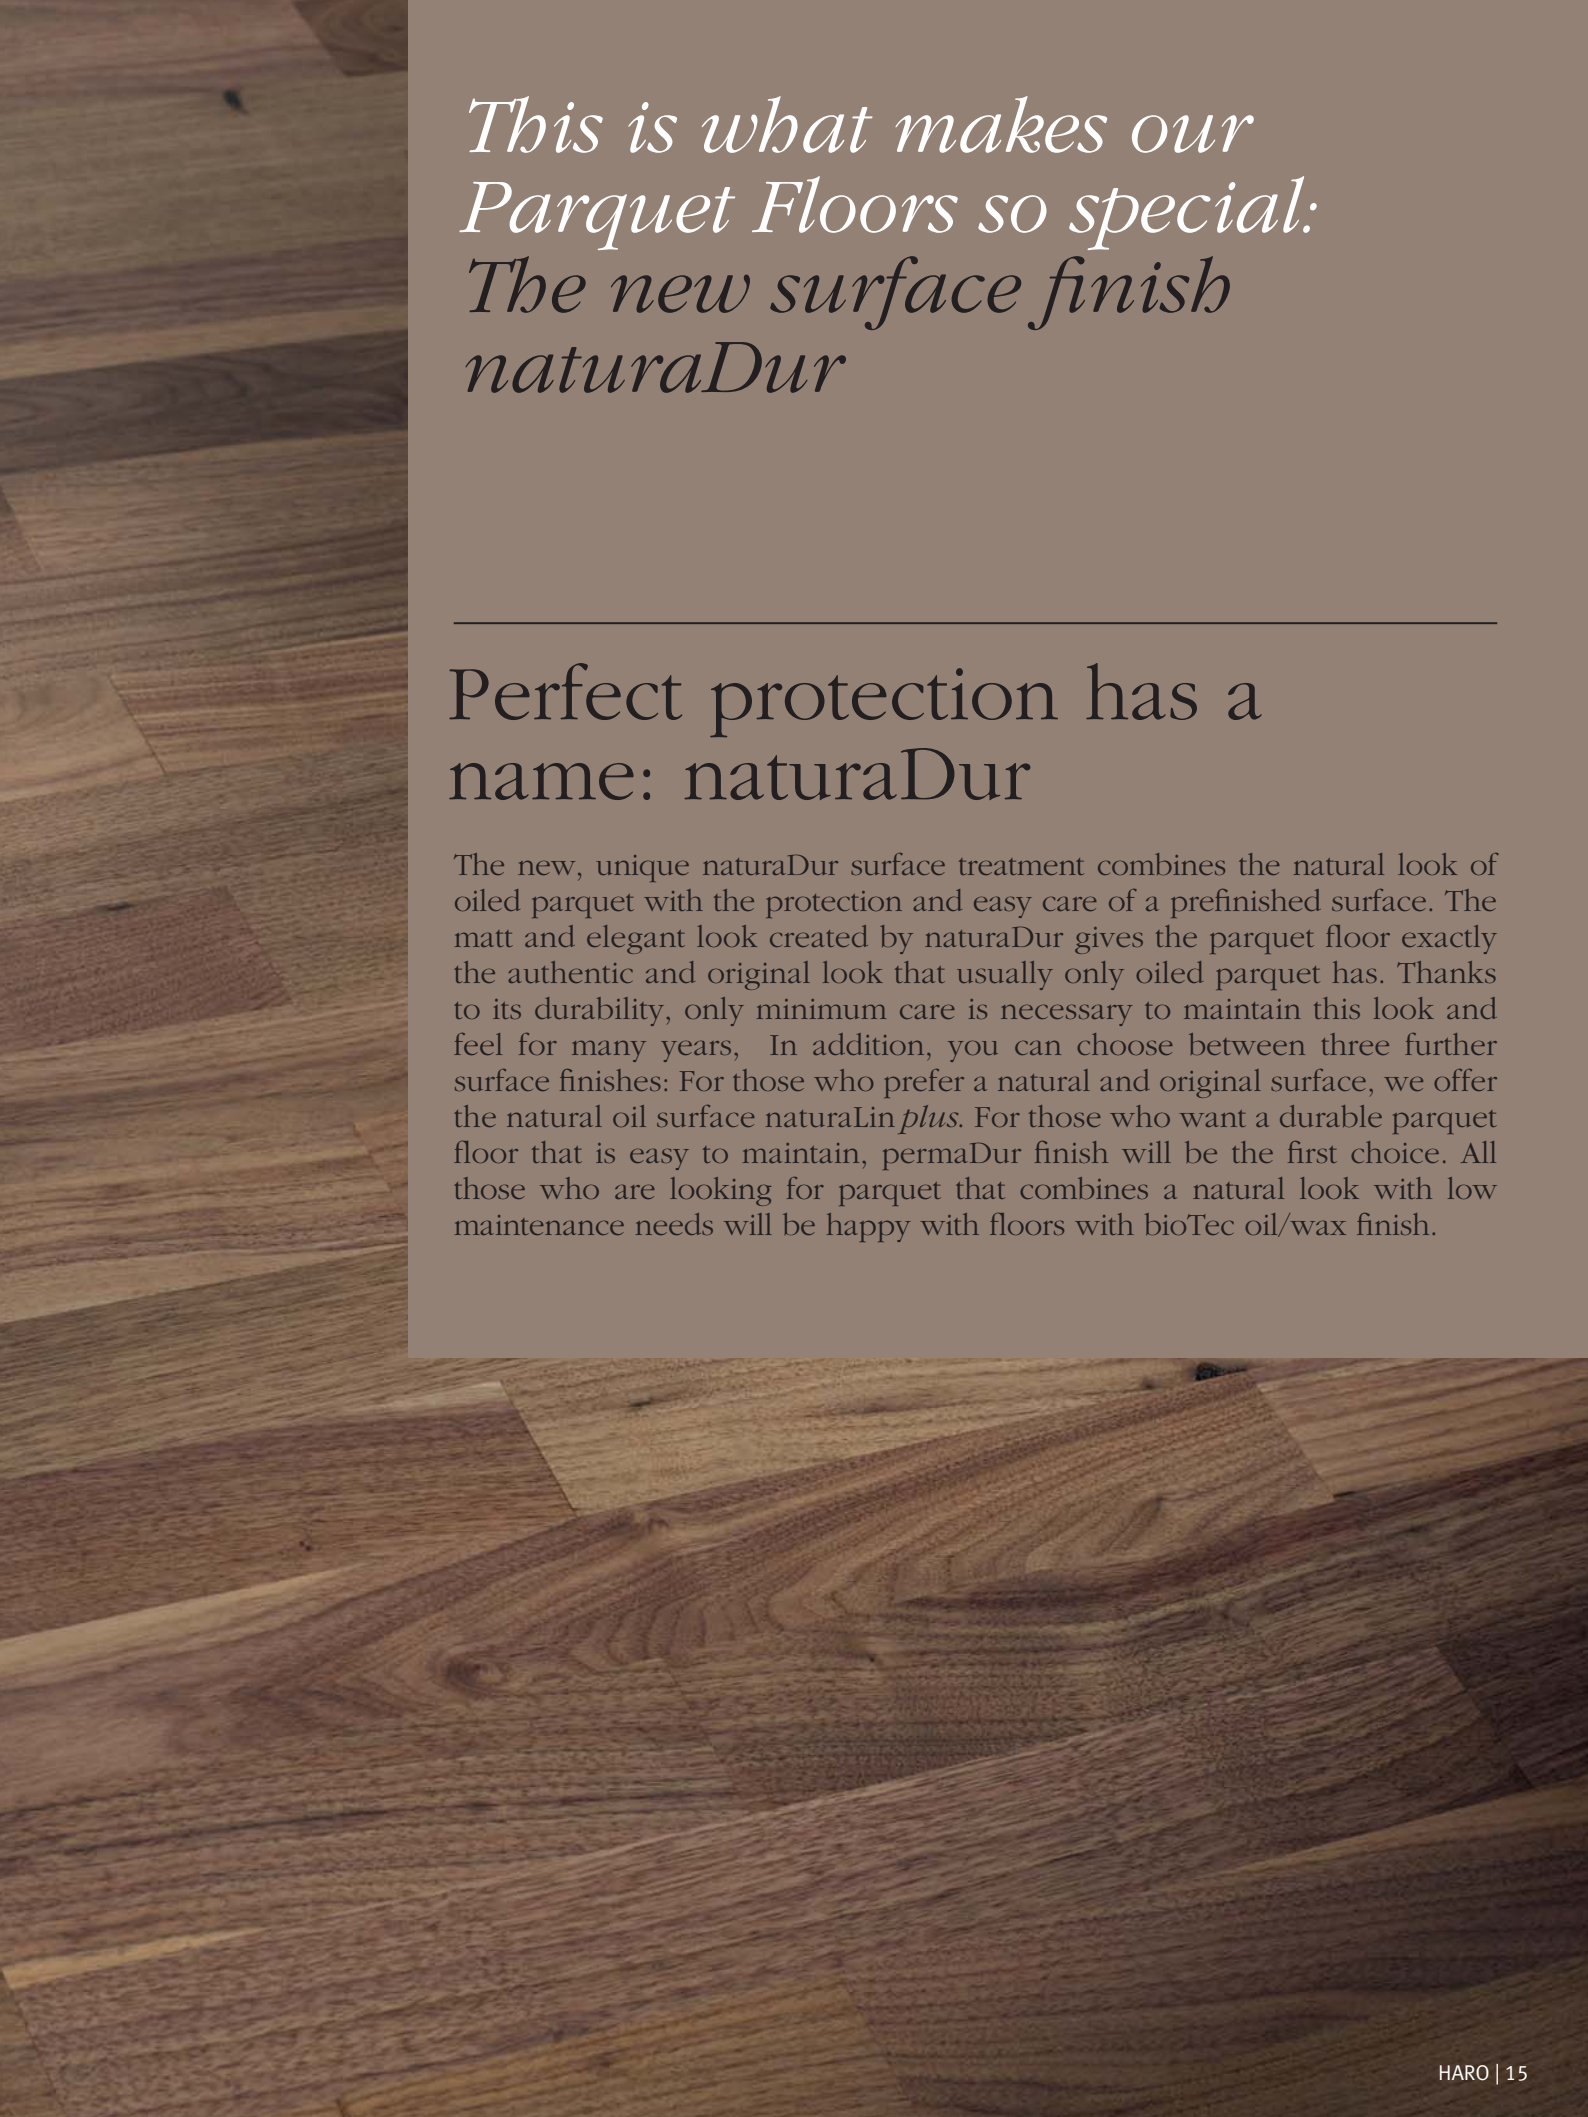

## Surfaces with the most natural feel ever.

An elegant parquet floor is a genuine part of pure nature. The natural appeal that makes our Parquet Floors so special is effectively highlighted by our surface treatments. This way, unique heavy-brushed textures are created that underline the natural character of the different wood types even more. The surface textures "brushed", "retro brushed", "retro brushed 3D", "heavy brushed" and "scraped" effectively emphasise the visual impact of HARO Parquet with stylistic confidence – for a natural experience that appeals to all senses.

*This is what makes our  
Parquet Floors so special:  
The new surface finish  
naturaDur*

---

## Perfect protection has a name: naturaDur

The new, unique naturaDur surface treatment combines the natural look of oiled parquet with the protection and easy care of a prefinished surface. The matt and elegant look created by naturaDur gives the parquet floor exactly the authentic and original look that usually only oiled parquet has. Thanks to its durability, only minimum care is necessary to maintain this look and feel for many years. In addition, you can choose between three further surface finishes: For those who prefer a natural and original surface, we offer the natural oil surface naturaLin *plus*. For those who want a durable parquet floor that is easy to maintain, permaDur finish will be the first choice. All those who are looking for parquet that combines a natural look with low maintenance needs will be happy with floors with bioTec oil/wax finish.

*This is what makes our  
Parquet Floors so special:  
The colour variety of our  
Puro range*

## Harmonious colour creations that mirror nature perfectly

Our Parquet Floors impress with their original naturalness. This characteristic is highlighted even more in our Puro Line. The products of our Puro Line form a complete product range. This gives you the opportunity to design all your rooms with floors in the same colour, adapted to the particular room situation. Longstrip Trend for small rooms, Plank 1-Strip Markant to give rooms a vibrant ambience, and Plank 1-Strip Sauvage for rooms with a modern interior design as a natural contrast. The Puro colours are created by the gentle treatment of the wood's surface, on which colour oils are applied that can only be found in nature: from white and creme to strong brown shades. The matt surfaces make the natural experience of the Puro Line particularly intense.

*This is what makes our  
Parquet Floors so special:  
The product line diversity*

---

## Plank 1-Strip Floors for every need

Our Plank 1-Strip boards convey an atmosphere of spaciousness, tranquility and naturalness that appeals to all senses. As a genuine specialist for this design, we offer a versatile and extensive product range for Plank 1-Strip. The perfect floor for every need. Discover and experience our Plank 1-Strip Floors made of exclusive wood types in the finest grades and with surface textures that set new standards when it comes to naturalness and authenticity. For exquisite and healthy living close to nature.

# *This is what makes our Parquet Floors so special: The HARO Lines*

---

Basically, our Parquet Floors are divided into three visual segments: the HARO Lines. Natural Line, Elegant Line or Classic Line represent the intensity that characterises our parquet floors. From elegant and calm to vibrant and natural – the HARO Lines make it easier for you to find the right floor to emphasise the visual impact of your rooms.

## **NL** *Natural Line*

Does natural and vibrant beauty mean everything to you? Natural Line will make your dreams come true Pure wood beneath your feet - vibrant, expressive and in a limitless variety Surface textures that you will want to keep touching – whether it is Plank 1-Strip or Longstrip. Naturally, they are also available in trendy colours.

page 22

## *EL* *Elegant Line*

Do you appreciate delicate interior designs? Our Elegant Line shows you how to make the most out of your rooms and create a refined and modern living atmosphere. Elegant and subtle floors with distinguished class and a noble look.

page 56

## *CL* *Classic Line*

Do you like a noble and harmonious ambience? The floors of our Classic Line radiate timeless beauty and are perfectly suited for a subtle understatement made of precious wood. Plank 1-Strip and Longstrip floors for classic interior designs – timeless, yet modern.

page 64

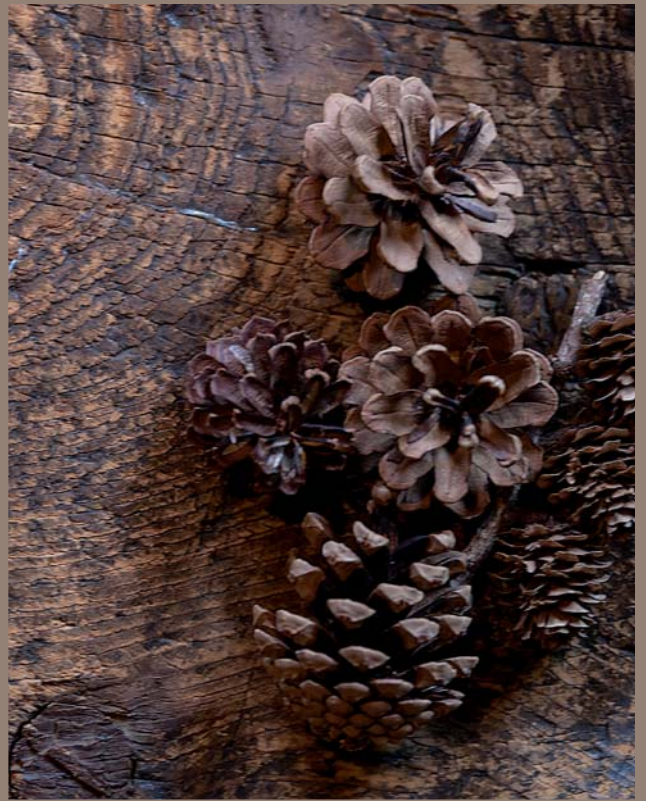

# *Natural Line*

*The natural side of life*

The Natural Line range is as diverse as nature itself. You will be delighted by Plank 1-Strip and Longstrip floors that radiate an expressive authenticity with a vibrant look. Pure wood in all its natural beauty: authentic, easy-going and inviting from the very first moment. Coloured parquet surfaces emphasising the natural wood grain and texture are also in line with the latest trends. Limewashing, in particular, brings out the wood's grain pattern to best effect. Enjoy colour-refined parquet with a vibrant personality.

# Construction

## CONSTRUCTION

1. Precious wood layer, approx. thickness 3.5 mm (1/8"), made from carefully selected and dried wood

2. Middle layer made of solid spruce fingerstrips with a consistent level of moisture, for maximum dimensional stability

3. Softwood backing board for improved stability

4. Optional: Insulation layer for increased comfort for your ears, joints and spine – either integrated or as a loose underlay

### QUALITY IN ALL LAYERS

Solid wood floors have some major drawbacks. Humidity fluctuations can cause the wood to warp and uneven subfloors require time-consuming sanding prior to installation. In addition, a large amount of wood is needed to produce just a few square feet of flooring. Multilayer parquet from HARO easily solves these issues.

The parquet's 3-layer construction with grains running in different directions reduces the natural swelling and shrinking of the wood by up to 70%. And compared to solid wood floors, multilayer parquet is also the better choice in terms of sustainability, eco-friendliness, and price-performance ratio.

## 3-LAYER CONSTRUCTION

### PERFECTLY CONSTRUCTED

Wood is a living material and affected by fluctuations in ambient conditions. A solid wood floor shrinks in the wintertime because of the low air humidity, and swells in the warmer, more humid seasons. This causes

unpleasant warping as shown in the illustration. 3-layer HARO PARQUET has been engineered so that these forces have no effect on the beauty and durability of the floor.

## PROTECTION AGAINST MOISTURE

**aquaShield**  
moisture protection

without

with aquaShield

### DO NOT GIVE MOISTURE A CHANCE

Our moisture protection proves our high quality standards. Our efforts exceed the standard by far. Water drops stay on the surface of our

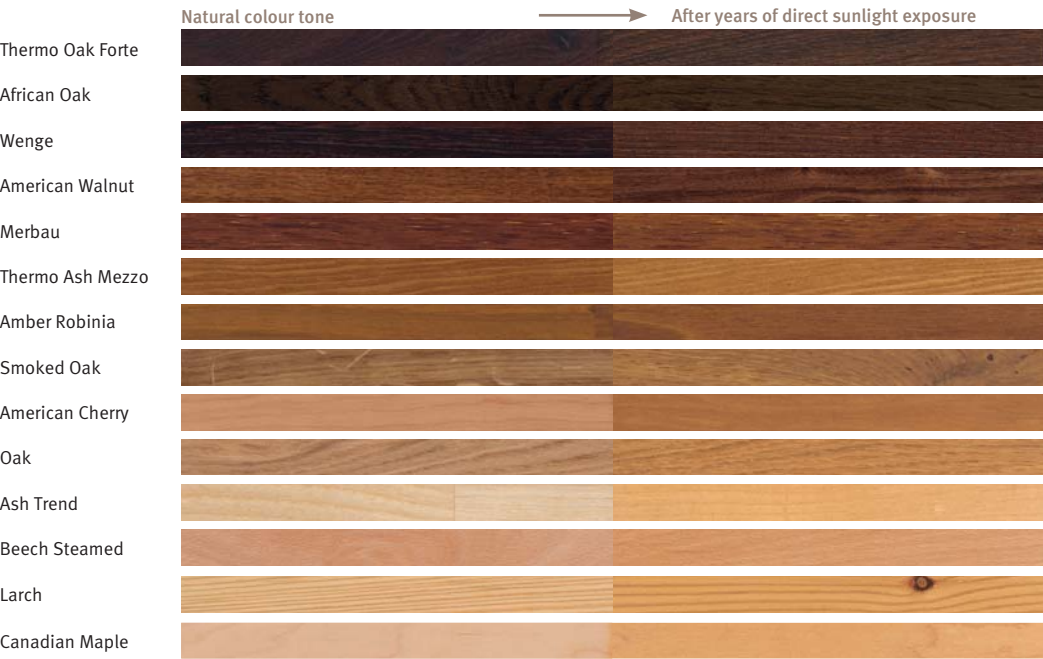

multi-layer parquet, repelled by the impregnated top-layer strip joints on the inside of the board\*.

\* for Longstrip Beech and Maple - Series 4000, thickness: 13.5 mm

# Natural Colour Changes

## Wood Hardness

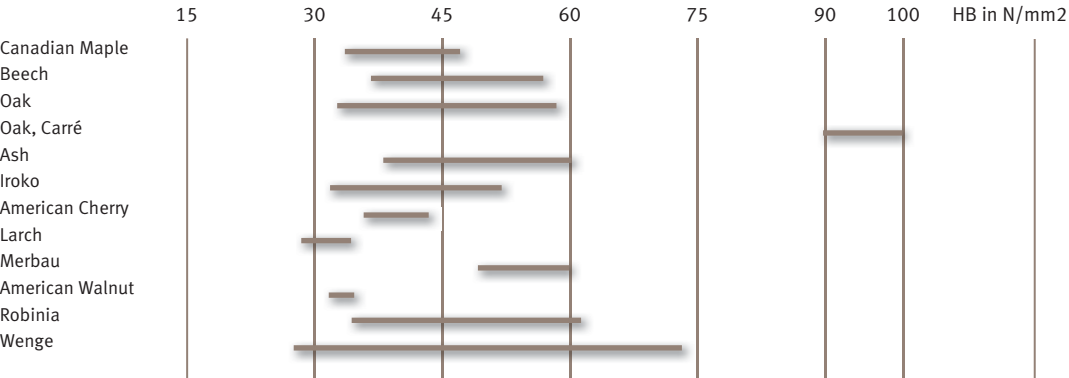

### NATURAL COLOUR CHANGES

### NATURAL COLOUR CHANGES

As a living material, wood changes under the influence of sunlight or UV radiation. Light wood gets darker with time, dark wood types tend to lighten. Why is this? It is quite simple: A key wood compound is lignin. It changes the colour of the wood when exposed to sunlight. Tropical wood species can strongly alter when exposed to light. Iroko and Merbau wood tend more towards a dark brown tone. The wood types with the steadiest colour tones are African Oak, Oak Carbon Black (parkettmanufaktur by HARO) and the colour-refined wood types from our parkettmanufaktur by HARO - they show almost no colour alteration.

### WOOD HARDNESS

### TESTING WOOD HARDNESS

Hardness is an important criterion for the use of parquet boards. Wood hardness is not given as a single fixed value, but indicated by a certain hardness range that varies depending on the tree's natural growth. It is measured with the Brinell test. In this test, a 10 mm diameter steel ball is pressed into the wood surface with a specified force and for a specified time. The Brinell hardness number (HB) is then calculated from the size of the indentation left in the wood. The harder the wood, the higher the Brinell hardness number.

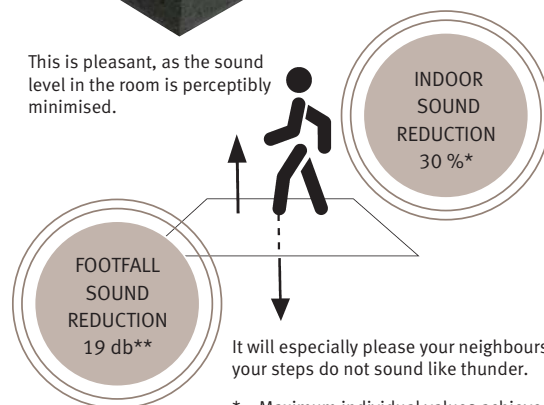

# Insulation underlays

## INSULATION UNDERLAYS

This is pleasant, as the sound level in the room is perceptibly minimised.

It will especially please your neighbours when your steps do not sound like thunder.

\* Maximum individual values achieved in accordance with the EPLF Impact Hammer test (compared to reference floor)  
\*\* In accordance with DIN 140-8

## SILENT PRO INSULATION LAYER

Our Silent Pro insulation layer offers excellent insulation against footfall and room sound. The high elasticity provided by the mineral fillers creates a pleasant “forest floor effect”.

### Silent Pro:

Based on PUR with mineral fillers.  
Thickness: approx. 3 mm  
Footfall sound reduction: 19 db  
Room sound improvement: 30 %

**Silent Pro DS:** Additionally with integrated vapour barrier (SD > 100 m).  
Values like Silent Pro.

**Silent ECO:** High-quality acoustic mat with excellent footfall and room sound properties; material based on vegetable oils with mineral fillers.  
Thickness: approx. 2 mm  
Footfall sound reduction: 18 db  
Room sound improvement: 27 %  
All insulation underlays are perfectly suited for use over underfloor heating.

## INTEGRATED INSULATION LAYERS

We particularly recommend the integrated insulation layer on the back of the board (available for areas over 10 sqm). Due to the fixed connection between parquet board and insulation, an impairment of the insulating effect due to cavities or gaps is avoided. Another advantage: Installation and insulation are done in one single work step.

## LOOSE INSULATION UNDERLAYS

An insulation underlay is generally recommended for all hard subfloors. It increases the floor's resilience, absorbs indoor and footfall sound, and evens out minor irregularities of the subfloor.

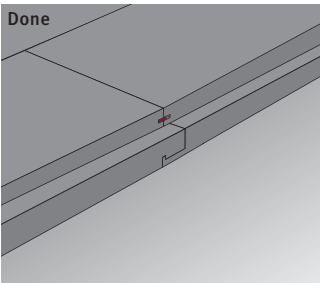

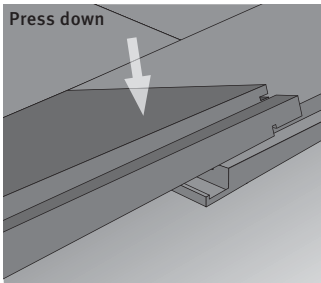

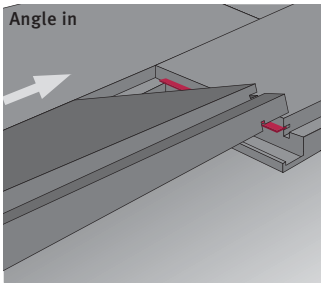

## UNDERFLOOR HEATING

Thanks to its low thermal resistance, HARO PARQUET is perfectly suited for installation over underfloor heating.

# Installation

## INSTALLATION SYSTEM

### TOP RESULTS WITH TOP CONNECT

Professional installation for everyone - easier and quicker than ever. Top Connect is probably the world's easiest installation system: it can be installed without any tools  
 You can install your HARO quality floor in no time - if you move house, you can take it out again just as easily.

- Very quick to install
- High-precision system for professional results
- Easy to put in, easy to take out
- Secure connections at the side and end joints
- Suitable for glue-down installation

## INSTALLATION SYSTEM WITH COMFORTEC

### TOP CONNECT WITH COMFORTEC

The HARO innovation ComforTec with self-adhesive boards is an ideal supplement to the revolutionary installation system Top Connect.

- The highest level of installation quality in combination with the fastest possible installation system
- Ready for immediate use
- No glue, no harmful substances
- Walk with the pleasant acoustic of a glued down floor
- Suitable for use with underfloor heating
- Seamless appearance without the need for end or transition mouldings (up to a door width of 150 cm)
- Extensive range with the most popular types of wood
- Available for Longstrip and Plank 1-Strip Parquet

# Care

## CARE – NEAT AND CLEAN

We have developed the innovative clean & green floor care series for the sustainable care of HARO PARQUET. It makes it easier than ever to clean and maintain our floors and it is completely safe and environmentally friendly.

For regular dry cleaning of the HARO floor coverings, we recommend vacuum cleaners from Kärcher. For regular damp cleaning of the HARO floor coverings, we recommend the flat wet-mops Ultramat Klassik, WischMat extra or Premium 5 from Vileda.

**clean & green®**  
Quick, easy and natural maintenance of all floors

**Parquet Cleaner 'natural'**  
Eco floor care concentrate  
For regular cleaning of  
all parquet surfaces.

**Intensive Cleaner 'active'**  
Eco floor cleaner concentrate  
For the basic cleaning of parquet.

**Parquet Care 'aqua oil'**  
Special care product for oiled surfaces.

**Floor care aqua shield**  
Durable refurbishing and  
maintenance of prefinished parquet.

# Accessories

## SKIRTINGS – with system

Whether matching the floor or contrasting - our range of skirtings provides the finishing touch for every taste. For more information about the sheer endless design possibilities please contact your HARO dealer.

Our elaborate skirting system makes it especially easy for you. Attach the fixation elements to the wall, slip the skirtings on – done.

## TRANSITION MOULDINGS

Transition mouldings elegantly join parquet floors or different floor coverings. They are constructed in a way that different heights between two floors can be balanced during the installation. This way you can create subtle transitions that harmoniously join two floor areas when the floors are not glued down. In that case transition mouldings are not necessary.

# Interior

## HAROTABLE

### WOULD YOU LIKE TO SEE MORE OF OUR ELEGANT PARQUET?

Basically, we came across the idea when planning our projects for appealing sales rooms for our dealers: We needed a table that would represent our genuine high-quality parquet floors in a timeless way. This led to the draft of the HARO Table as a stylish centrepiece for the showrooms of our premium dealers. When the first prototype was finished, we realised that we had achieved a genuinely stylish piece of furniture. The surface is made of elegant and durable parquet suitable for everyday use. The frame is made of high-quality steel with a highly modern rust effect. When more and more orders came from our dealers, we decided to go into serial production. An eye-catcher for every room – regardless of the installed floor.

## HAROSTAIR

### STAIR NOSES – PERFECTION ON THE HIGHEST LEVEL

For rooms with HARO PARQUET, it is important to us that stairs, corners and edges look great, too. This is why we offer matching stair noses for every HARO Parquet Floor. This is why we have added further elements to our product range that make the overall impression of the room even more perfect: pre-manufactured solutions for the paneling of the sides of the stairs with HARO Parquet stair nosings (only suitable for straight stairs).

---

## HAROWALL

### HIGHLIGHT WALLS – CREATE AMBIENCE

wooden walls are in line with the latest interior design trends. Puristic furniture and large glass areas correspond with floors and walls that radiate warmth and provide texture. Therefore, parquet on walls is attracting more and more fans.

Installing elegant HARO Parquet on the wall is incredibly easy: simply remove the protection foil from the back of the boards, add mounting adhesive and stick it to the wall. This way, the room gains a contrasting effect and benefits from the natural appeal of the combination of parquet floor and HARO Wall.

### A STRONG STATEMENT - PARQUET ON THE WALL

For an extravagant interior design it is now possible to extend the parquet floor and also use it as a wall covering. For this, we have developed an installation system with which you can professionally install a parquet floor on the wall. The parquet boards are installed on the rails of the system and the edges are covered with aluminium mouldings or end mouldings made of wood. This creates a room emphasis that mirrors the naturalness and warmth of your parquet floor.

# Certification

The fact that quality is not just a promise can be seen in our products and their perfectly matching accessories, as well as in the numerous certificates that we have been awarded. They prove that we highly value transparency and diligence when it comes to a healthy living environment and our production processes.

## Sustainability

Hamberger Flooring GmbH & Co. KG has been PEFC-certified since the beginning of 2004. HARO PARQUET is the first parquet brand to be 100% PEFC certified. This means that all the wood we use is sourced from certified, sustainably managed forests.

## Real wood

Hamberger Flooring GmbH & Co. KG leads the way in implementing the Real Wood Campaign to ensure real wood floors are correctly identified as such.

## ISO 9001

Our quality management system has been certified in accordance with DIN EN ISO 9001:2008 since 1995. It secures workflows in the company and consequently contributes to maintaining a consistent product quality.

## ISO 14001

With the certification according to DIN EN ISO 14001:2004, we have committed ourselves to active environmental management since 1998.

## HARO Warranty

In addition to the statutory warranty terms, HARO also provides additional warranties for various product groups. Please note the respective warranty conditions.

## Blue Angel eco label

The Blue Angel has proven the environmental compatibility of our products since 1992.

## Made in Germany

Because our top quality floors are of the proverbial German high-precision workmanship, they come with the internationally renowned "Made in Germany" label.

## CE

The CE label confirms that HARO floor coverings comply with all essential European safety and health directives.

## vdp/FEP

Hamberger Flooring GmbH & Co. KG is a member of the Verband der Deutschen Parkettindustrie e.V. (Association of the German Parquet Industry) and of the FEP, the European Federation of the Parquet Industry.

# *Floor studio*

Are you looking for a perfectly processed, hand-made parquet flooring with a particularly spacious look for every room, made of choice wood of premium quality? parkettmanufaktur by HARO can fulfil this wish with XL boards that are as long as four metres. Naturally, besides these impressive formats we also offer Plank 1-Strip boards with classical dimensions.

*For more than just one day...  
colour-refined surfaces*

Ash Barrique  
brushed

Durability is one of the quality features of exclusive parquet. Among other things, it is the deep and solid colouring of the top layers with precious natural colours that ensures that you can enjoy your unique treasured floor for a long time. This colour refinement creates a higher UV stability on the one hand, on the other hand, the solid colouring which permeates into deeper layers ensures that signs of use are not visible. All in all, the floor becomes more durable and the colour is preserved even after several sandings.

*Values – ideal for  
my lifetime dream*

NATURAL OIL

Plank 1-Strip 4V  
ASH ARABICA MEZZO  
hand scraped

The parquet boards by our parkettmanufaktur particularly show our creative handling of wood as a natural material, and our desire to preserve what is good. The hand-scraped surface uniquely emphasises the exceptionality of this floor. The surface is carved out of wood. This way you get a floor that is individually manufactured and of fantastic quality. This creates something of value that you can hand down to the next generation.

*Natural individuality –  
the mixture makes the difference*

OAK ARABICA FORTE  
deep brushed

In our master workshop we develop incomparable floors with a maximum of individual charm completely according to your wishes. The contrasts are what make them so appealing. New meets old, concrete meets wood, cold meets warm and natural meets artificial. Personality, character and individuality grow from this friction – and it gives your home a unique appeal.

# Range Overview

## Plank 1-Strip XL

### FORMATS

#### PLANK 1-STRIP XL

The biggest for spacious interior designs. Available in the dimensions 245 x 3030 mm (9 21/32" x 119 9/32") and 305 x 4030 mm (12" x 158 21/32").

Top layer thickness: approx. 5 mm (3/16")

Optionally, the 245 mm-wide (9 21/32") XL board is also available in the lengths of 1800 (70 7/8"), 2000 (78 3/4") and 2200 mm (86 5/8").

#### PLANK 1-STRIP

Impressive naturalness and generosity. Dimensions: 180 x 2200 mm (7 3/32" x 86 5/8")  
Top layer thickness: approx. 3.5 mm (1/8")

For Oak Nubia, Vintage Oak and all colour-refined surfaces with the dimensions: 173 x 2200 mm (6 13/16" x 86 5/8").

## Plank 1-Strip with colour-refined surface finish

### LASTING COLOURS

Not every colour matches every wood type. Depending on the colour intensity, the natural grain is either emphasised or a completely new look is developed. With seven different colourations we cover the entire spectrum of design possibilities.

# Range Overview

## Vintage Oak, Creek Oak, Carré

### VINTAGE OAK

First-class workmanship: oak wood that is as old as 300 years is used for the Vintage Oak parquet boards. The highest level of individuality meets tradition and a hint of eternity.

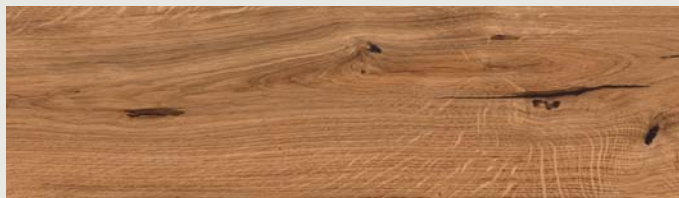

**PLANK 1-STRIP  
VINTAGE OAK  
BRUSHED WITH  
bevelled edge**

### CREEK OAK

Expressive oak boards, manually selected top layers with rustic features, such as cracks that are elaborately treated by hand.

**CREEK OAK**  
Brushed with  
bevelled edge all around

**OAK  
NUBIA**  
Brushed with  
bevelled edge

### CARRÉ DESIGN

In the Carré Design, the symbiosis of modernity and rusticity becomes visible in a unique way. Contrary to the usual method, the boards are not cut length-wise but composed of cross-cut wood. This cross-grain parquet has several distinctive features: it is particularly resistant and shows a very individual taste.

**CARRÉ  
OAK

For further information on our products from the parkettmanufaktur and a full overview of our product range, please take a look at our special catalogue on the parkettmanufaktur or our website:  
[www.parkettmanufaktur.de](http://www.parkettmanufaktur.de).

## *Surface finish*

Even though every floor is unique, the floors from parkettmanufaktur by HARO have one thing in common: They are all gently finished by hand with the precious oleovera natural oil. Without using UV radiation, we allow the oil to penetrate deep into the wood in a natural way. This way, the wood can keep its natural character and you can enjoy this natural experience every day and with every step. A luxury you will not want to do without anymore. Our Plank 1-Strip OAK CARRÉ is also available with the renowned PERMADUR natural matt finish. For all those who are looking for a particularly tough parquet floor that is also easy to maintain.
